

Scabblers

Working concrete has never been easier, thanks to Atlas Copco's lightweight and compact scabblers. They are equipped with tungsten carbide tipped pistons. All models have three pistons mounted in line of which the cycling occurs due to the air porting arrangements in the piston assembly.

Applications:

- Concrete cleaning and roughening
- Keying the surface of construction joints
- Produce ornamental or contrasting finishes on concrete surfaces

Features:

- Back head grip, gives in-line thrust
- Chamfered cylinder block increases visibility to the work surface
